

Program: Intensive Residential- GRAN Recovery

Our mission is to promote overall health and improve quality of life by ensuring the delivery of effective behavioral and physical health care that meets the needs of communities we serve.

Internship Description

View Point Health is excited to offer learning opportunities to energetic students who are interested in working in a fast paced environment with a leading comprehensive community provider specializing in recovery. By joining our team as an intern, View Point Health will offer a semester full of learning to support your educational and professional development. Supervision and guidance are provided by licensed/certified clinicians with various areas of knowledge and expertise.

Benefits

- Direct training and clinical development working with diverse clients presenting a variety of mental health and addictive disease challenges
- Gain strong understanding of addictive disease and experience working with individuals with substance use disorders, and their families/natural supports
- Explore a wide range of evidence based practices, treatment modalities, and interventions
- Supervision from fully licensed & credentialed staff with an array of skills and experience

Responsibilities

- Shadowing clinical staff to observe assessments and counseling services
- Individual and group counseling (as assigned by supervisor)
- Collaborate with clinical team to develop group content and activities for skills training & psychoeducation
- Triage, Biopsychosocial assessments and Service Plan Development (as assigned by supervisor)
- Observe and assist with Crisis Intervention; in addition to providing clinical support for 1013/2013 placements
- Provide case management services in coordinating with community stakeholders and resources (courts, probation/parole, DFCS, medical providers)
- Research and development of resource guides (to include but not limited to: foodbanks, health clinics, support meetings, financial assistance, sober living etc.)
- Attend and participate in clinical staffings, treatment team meetings, and supervision. Identify need for engagement/outreach and/or follow up contacts with case management services
- Attends agency led meetings and initiatives (as assigned by supervisor)

Requirements

- Enthusiasm for learning about key principles related to counseling, social work, mental health, addictive diseases in addition to developing skills to support recovery of persons served
- Detail oriented
- Commitment to assigned role, tasks and schedule
- Self- motivated to gain knowledge and direct clinical experience

Majors/Area of Study

Psychology, Counseling, and Social Work.
