Focus on Expanding Behavioral Health Care Services

On behalf of View Point Health, we extend our heartfelt appreciation for your continuing support. Whether through advocacy, giving, or supporting loved ones, you have made a difference in the lives of those we serve.

View Point Health is a caring community of providers who offer a full continuum of behavioral health services to individuals needing mental health, developmental disability or substance use services. This year, View Point Health focused on expanding high quality, coordinated care to those most in need in our communities.

In September 2022, View Point Health was awarded a 4 year, \$4 million planning grant to become a Certified Community Behavioral Health Clinic (CCBHC) in order to expand comprehensive care.

We further addressed community needs by adding Co-Responder programs in Gwinnett, Rockdale, and Newton Counties which pair View Point Health clinicians with police to better assist in behavioral health crisis calls.

In March 2023, we opened a new Detox Crisis Center in Covington, GA further expanding much needed substance use crisis support.

In 2022, View Point Health was honored to be recognized as the Behavioral Health Provider of the Year for the State of Georgia by the Department of Behavioral Health and Developmental Disabilities.

We are stronger as a community if we all work alongside one another and support each other's mission.

13. Eric Naughton
Chief Financial Officer, View Point Health

Eric Naughton is currently the Chief Financial Officer at View Point Health. View Point Health is a community behavioral health center utilizing a team of psychiatrists, nurses, licensed counselors, social workers, and other professionals to provide services to individuals who need treatment and support to cope with mental illness, substance abuse, and intellectual and developmental disabilities. They serve uninsured, underinsured, low-income Medicaid, Medicare, war veterans, and some private insurance across multiple locations with a full continuum of behavioral health services and supports. Their services have helped reduce homelessness, crime, and incarcerations, increase graduation rates, lower dropout rates, decrease ER visits, and decrease inpatient admissions.

Prior to his current role, Eric was the budget director at Suffolk County, where he ensured effective management of the County Budget Office with a focus on compliance with Suffolk County's Charter while enhancing the financial stability of the County through monitoring and managing revenues, expenses and hiring of personnel. Eric also oversaw the development of County financial policies and procedures to ensure the efficient and effective utilization of resources. Additionally, he monitored and formalized the annual County operating budget, multi-year plan, and capital program while maintaining vital services.

Eric has an undergraduate degree in finance from The Wharton School and a Certificate of Local Government Management - Levels I, II, and III from the University of Georgia - Carl Vinson Institute of Government.

What Our Clients are Saying About View Point Health

CLIENT/FAMILY FEEDBACK

They help give my son a place where he can express himself and have fun with other children

My therapist is Phenomenal! Our sessions have made a major difference in my quality of life!

The groups were informative and staff was very friendly

I appreciate all that you do for the community as well as for me. Thank you!

I'm delighted with the quality service and the friendliness of the staff, I just wanted to tell you thank you very much for helping my family

Very caring and compassionate staff

OVERVIEW OF SERVICES

VIEW POINT HEALTH

We are a Community Service Board which provides services as the safety net for Mental Health, Substance Use, and Intellectual & Developmental Disabilities serving Gwinnett, Rockdale and Newton Counties. We serve uninsured individuals, Medicaid, or Medicare

MENTAL HEALTH SERVICES

We serve adults, youth, and children through outpatient individual and group counseling, community based services, school-based counseling and youth wraparound care. In addition, we provide residential services, day programs, supported employment, court and re-entry services.

SUBSTANCE USE SERVICES

We provide individual and group outpatient counseling. In addition, we provide residential services, youth clubhouses, inpatient recovery, Medically Assisted Treatment, and inpatient detox.

INTELLECTUAL & DEVELOPMENTAL DISABILITIES

We serve adults through day programs, supported employment, and residential services.

CRISIS SERVICES

We have three 24 hour Crisis Stabilization units:

- Adults (Lawrenceville)
- Child & Adolescent (Decatur)
- Adolescent Autism (Conyers)

Who We Serve

We are proud to serve individuals across the state of Georgia. We serve as the safety net for Gwinnett, Rockdale and Newton Counties. We mainly serve individuals who are underserved including those with no insurance or those who are on Medicaid or Medicare. Our client demographics align closely with the counties where we serve.

We mainly serve individuals who are underserved including those with no insurance or those who are on Medicaid or Medicare. Our client demographics align closely with the counties where we serve.

Detox Unit - Covington

View Point Health's new Detox Center opened in March 2023. This 8-bed voluntary detox program provides care to adults 18 years and older. The addition of the Detox Center allows us to have specialized, individualized care for adults needing detoxification from substances in a safe, comfortable environment located in Covington, Georgia.

Our ribbon cutting ceremony on March 3, 2023 was attended by many of our wonderful community partners, DBHDD Commissioner Kevin Tanner, our View Point Health board members and staff, and our Newton County Commissioners.

Client Story

R.B. spoke to us at the Detox Center Ribbon Cutting

I'm a person in long-term recovery.

I'm 22 years old.

I've had 11 months of sobriety.

Recovery to me means I maintain and keep up with my spiritual, mental, emotional, and physical health. I keep up with my psychiatric medicine, and I see my therapist regularly.

I was born in the 7th ward in New Orleans. Hurricane Katrina happened when I was 5 years old and we lived in the Super Dome for at least a month. We then relocated to several states before settling in Georgia.

I only met my father once and he died in prison in 2016. My mother struggled financially and was rarely home, so I had to grow up a little too fast. I made friends through substance abuse in middle school and I turned to selling drugs to help my mom financially. My drug abuse skyrocketed in high school after my sister died.

To save my life, I started at View Point Health in outpatient counseling. I then moved to Detox with View Point Health then they helped get me enrolled in GRAN 28 day program. From there, they helped me to continue care at SA Residential.

I had a hard time comprehending all of this goodness that people were lending me. I didn't feel worthy. Now I sponsor other young men in sobriety.

"My new desire to live my life, enjoy what's in front of me, and enjoy the peace that I have is indescribable."

Co-Responder Services

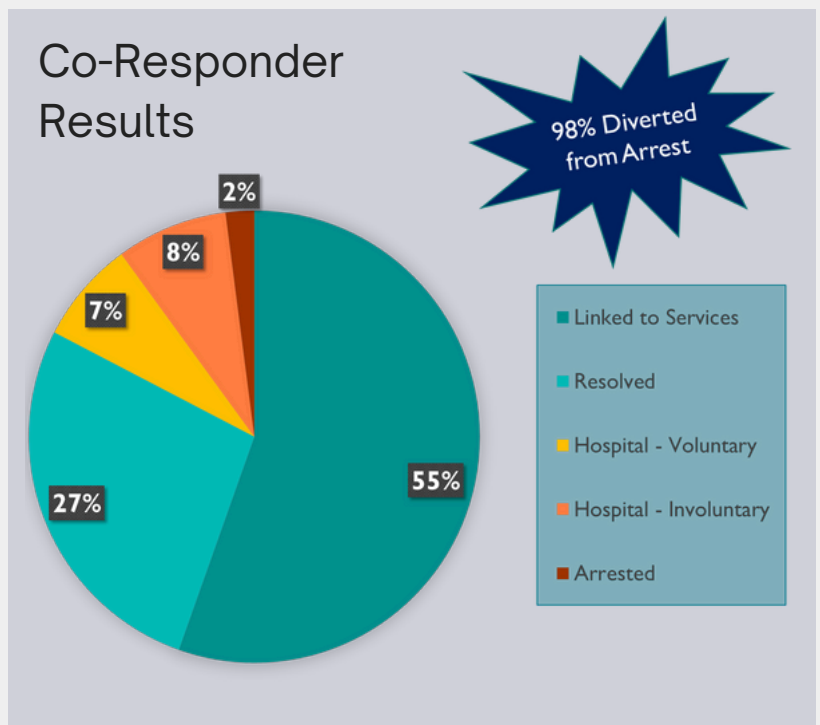

Through the May 9, 2022 Georgia Behavioral Health and Peace Officer Co-Responder Act, we have established a Co-Responder Program which partners View Point Health and law enforcement agencies to allow View Point Health Clinicians to accompany peace officers on emergency calls involving behavioral health crisis to de-escalate situations and help link individuals with behavioral health needs to appropriate care.

This highly successful program helps give a tailored response to individuals' needs during a crisis, diverts individuals who need treatment from jails and prisons, decreases costs incurred by county jails and the criminal justice system, increases community access to behavioral health services, and reduces recidivism.

In our first year of the Co-Responder program, we have had an amazing 98% diversion rate for our calls with law enforcement.

Gwinnett police's mental health team helped end Greyhound bus standoff

Legislative Support

View Point Health is grateful to our many federal, state, and local legislative supporters. The past year has had many amazing legislative wins for behavioral health in the state of Georgia. Along with the May 2022 Georgia Behavioral Health and Peace Officer Co-Responder Act, the Mental Health Parity Act became effective July 1, 2022. Mental Health Parity is landmark legislation that will improve access to mental health and substance use disorder treatment for Georgians. Mental Health Parity means that health insurance covers substance use and mental health conditions and services in an equal way compared with other kinds of health conditions and services.

To thank the many supporters of behavioral health in our legislature and to help show many of our programs first-hand, View Point Health held several legislative events at our locations as well as at the Capitol.

The Future of Behavioral Health Care:

CCBHC

Certified Community Behavioral Health Clinic

The Certified Community Behavioral Health Clinic (CCBHC) is a growing care model that offers creative solutions with documented results to meet the challenges facing behavioral health care organizations across the country.

In September 2022, View Point Health received a 4 year \$4 million SAMHSA planning, development, and implementation grant to begin the process of becoming a CCBHC.

CCBHC's, a new provider type in Medicaid, are designed to provide a comprehensive range of mental health and substance use disorder services to vulnerable individuals. In return, CCBHCs receive an enhanced Medicaid reimbursement rate based on their anticipated costs of expanding services to meet the needs of these complex populations.

CCBHCs are non-profit organizations or units of a local government behavioral health authority. They must directly provide (or contract with partner organizations to provide) nine types of services, with an emphasis on the provision of 24-hour crisis care, evidence-based practices, care coordination with local primary care and hospital partners, and integration with physical health care.

This expansion of services will allow View Point Health to provide many benefits including improved access to care, new service lines, chronic health management, increased hiring and retention, redesigned care teams, improved community partnerships, fewer hospitalizations, lower emergency room utilization, and improved physical health for individuals.

Financials

The net income level achieved for Fiscal Year 2023 exceeded our budget expectations. View Point Health management continues to make prudent decisions to improve operations, while maximizing the funding it receives from outside grants.

Behavioral Health of Georgia received \$318,283 in grant funding for FY 2023

Behavioral Health of Georgia is a 501 (c)(3) created for the purpose of supporting View Point Health Programs and Services

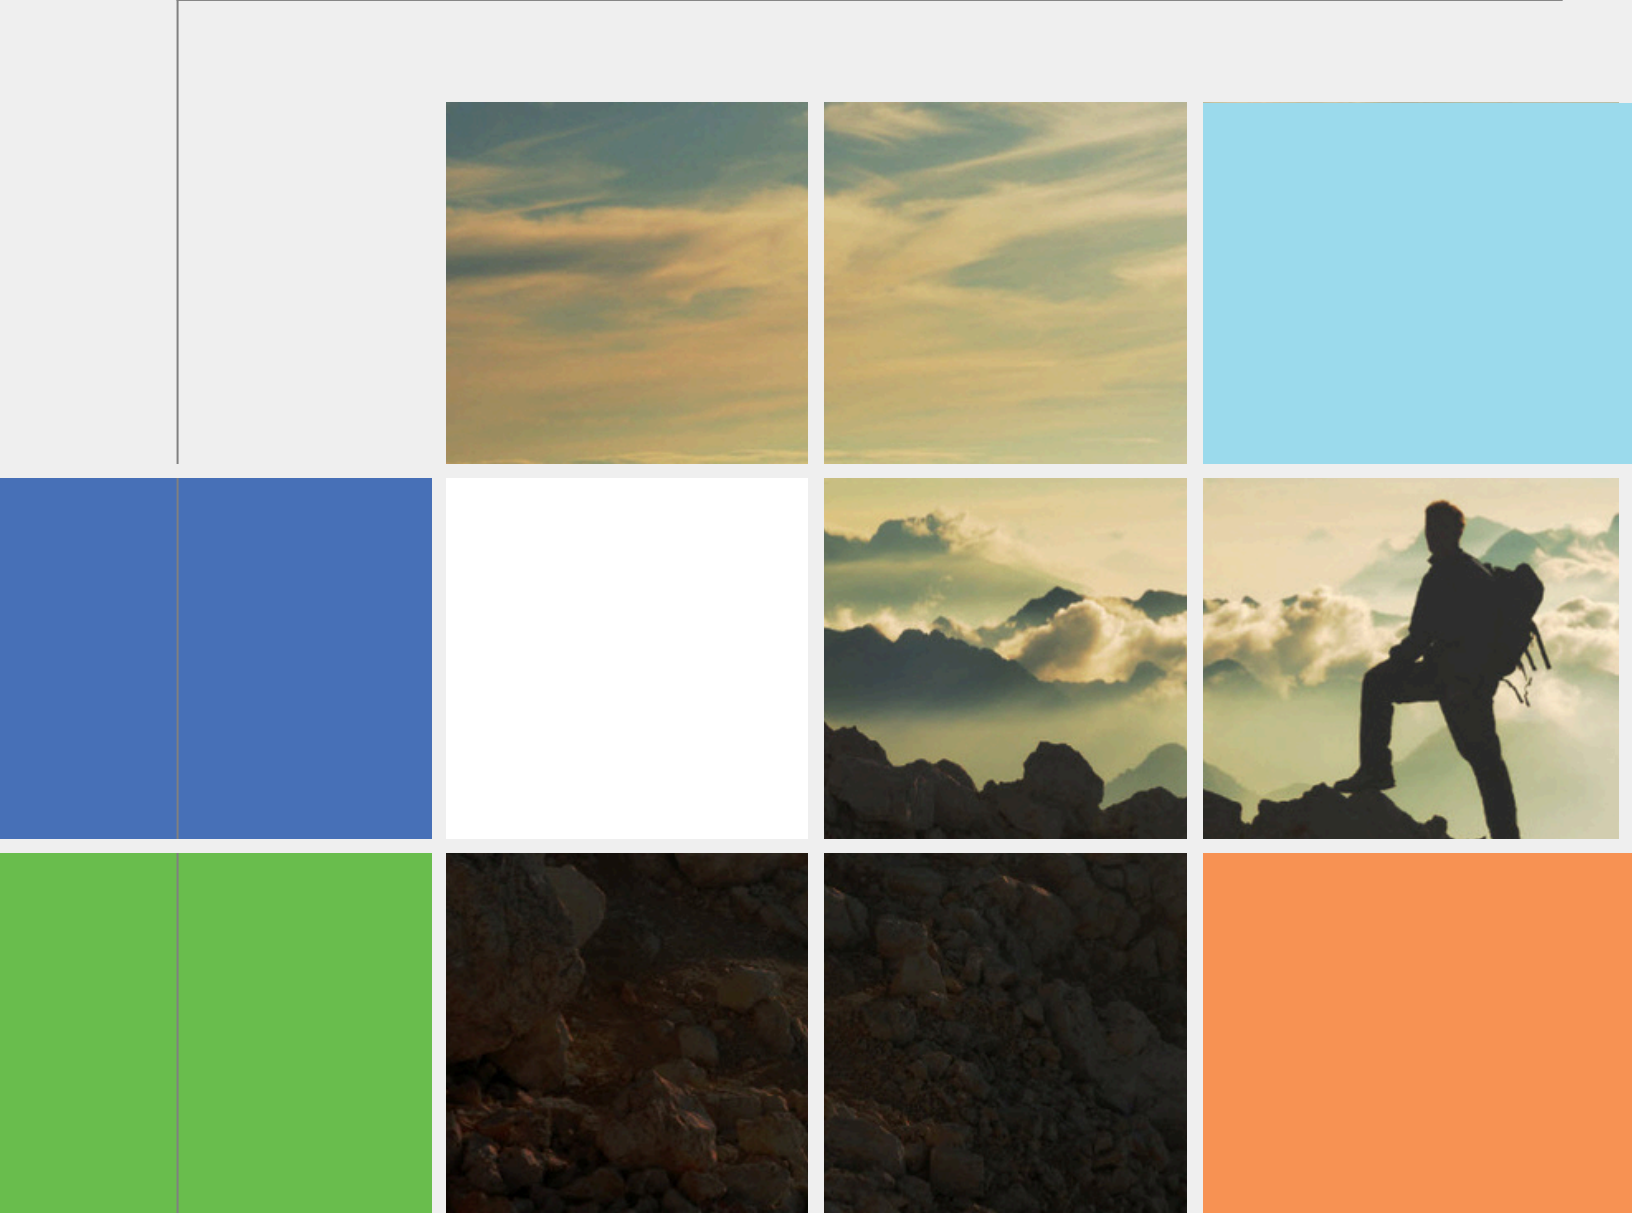

A framed informational graphic with a dark background and gold decorative flourishes. It features a portrait of Louise Radloff, the View Point Health logo, the Behavioral Health of Georgia logo, and a QR code.

The Louise Radloff Fund

In honor of Louise Radloff, who served as the first board chair for View Point Health and graciously continued to serve for the past 28 years, the Louise Radloff Fund has been established to directly benefit the clients of View Point Health.

Donations to this fund will help to continue Ms. Radloff's tireless advocacy efforts. To contribute to the Louise Radloff Fund, please visit www.behavioralhealthga.org/donation

Thank You

Thank you for your continued interest in View Point Health’s mission to serve our community. We are excited to further expand our services. Please contact us if we can be of assistance.
